(4) provisions designed to prevent unauthorized online access by minors, including “hacking” and other unlawful activities by minors online;
(5) provisions prohibiting the unauthorized disclosure, use, and dissemination of personal information regarding minors;
(6) a component on Internet safety for students that is integrated in the division’s instructional program.

Use of the School Division’s technology shall be consistent with the educational or instructional mission or administrative function of the Division as well as the varied instructional needs, learning styles, abilities and developmental levels of students. The Division’s technology is not a public forum.
Each student and parent/guardian of each student shall sign the Acceptable/Responsible Use Agreement, IIBEA-E2, before using the Division’s computer system. The failure of any student, teacher or administrator to follow the terms of the Agreement, this policy or accompanying regulation may result in loss of computer system privileges, disciplinary action, and/or appropriate legal action.

The School Board is not responsible for any information that may be lost, damaged or unavailable when using the computer system or for any information retrieved via the Internet. Furthermore, the School Board will not be responsible for any unauthorized charges or fees resulting from access to the computer system.
